Thanks

We will let you know the sections we are still reviewing when we meet, at this point we are reviewing the entire notice, so may have comments throughout.

I will hold emailing the current version of the rule to OAR/OAQPS until I have talked to you all this morning so I know what we are still editing.

One change that I know we still need to make is the response to source vs unit comment in the modeling section to make it more consistent with the intro text (there are comment bubbles there right now). Could we do that this morning?

Talk to you soon.

Thanks

Just to clarify – there are still a substantial number of edits to work in. We are working as fast as we can, and will only request those absolutely necessary.

Okay. I will print all the pages from the combined document that need changes, hand mark the necessary changes with red pen, and then bring them to your office.

Importance: High

All –

There is now a document titled wyomingSIP-FIP.OARcopy in max.gov. This is what I will be sending to Ruth shortly. This is the document people need to edit going forward. Carl asked that we not send this document with any comment bubbles/redline strikeout, so I have taken those out of this document. If you want to see what the remaining comment bubbles were, you can go back to the individual section documents.
